

Please support **SB-46 & HB-5330**. I am very concerned about my children [Connecticut's children] being exposed to toxic lawn pesticides and am very pleased that Connecticut has a law prohibiting the use of toxic lawn pesticides at day care centers and school grounds with children through grade 8. But why are our young people not protected in other places like high schools, parks, playgrounds, municipal sports fields and town greens where they are involuntarily exposed to these toxic chemicals? Please support legislation to protect Connecticut's children wherever they may be exposed to toxic lawn pesticides."

Sincerely,

Laura & David Sinaguglia
